U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On January 12, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
January 13- 21, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our brief experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on January 23, 1975, release:

Wheat: An increase in the apparent export commitment (cumulative exports plus outstanding sales) of 475,000 metric tons (MT) during the week ending January 12, plus sales recorded to India since then under the daily reporting system, increased the total reported commitment by about 575,000 MT since the last report in this series. The apparent export commitment to India for 1974/75 now stands at about 4.0 million MT, with an additional 300,000 MT now being negotiated under PL-480, making India the largest market this year for U.S. wheat.

? Feed Grains: A sharp increase of 530,000 MT was added to the apparent export commitment during the week ending January 12. The European Community (EC) accounted for most of the added commitment, which included new sales of 177,000 MT of oats to Italy. Meanwhile, the EC issued licenses for imports (from all third country origins) of about 3 million MT of corn during the month ending January 14. This brings the total of corn import licenses issued by the EC to 6.0 million MT since its marketing season began on August 1, 1974.

Rice: The apparent export commitment increased by only 11,000 MT during the week ending January 12. A decrease of 20,000 MT in the reported commitment to EC destinations was more than offset by additional sales of almost 30,000 MT to the Khmer Republic.

Soybeans: On January 17, USDA's Outlook and Situation Board released revisions in soybean supply/demand estimates for 1974/75, including a reduction in the export estimate from a range of 13.2 - 14.0 million MT to 12.5 - 13.3 million MT, still well below the annual unadjusted rate of exports currently running at 14.3 million MT. During the week ending January 12, apparent export commitments declined by 96,000 MT, primarily in the EC, the second consecutive weekly decline.

Soybean Meal: On January 17, USDA's Outlook and Situation Board included in its revised estimates a slight decrease in the 1974/75 export estimate for soybean meal from a range of 5.0 - 5.2 million MT to 4.9 - 5.1 million MT, still well above the unadjusted annual rate of exports currently running at 4.0 million MT. As in the case of soybeans, apparent export commitments declined by 57,000 MT during the week ending January 12. On January 1, Switzerland, which usually imports about 80,000 MT of U.S. soybean meal annually, increased its import surcharge from \$39 to \$71 per MT.

Soybean Oil: On January 17, USDA raised its 1974/75 export estimate for soybean oil from a range of 454-544,000 to 544-590,000 MT, in line with the weekly unadjusted annual rate which rose again during the week ending January 12, to 564,000 MT.

Cotton: Upland cotton exports during the week ending January 12 were 87,000 running bales (RB), bringing the 1974/75 total to 1,248,000 RB. The apparent export commitment increased by only 13,000 RB to 4,355,000 RB for the year ending July 31, 1975.
